

Dect D3 mobile handset

*Professional and sturdy
for use in DECT systems*

As a leading supplier of communication systems and services, Avaya designs, builds and manages communication networks for over one million companies worldwide. Our goal is to develop customized business communications, offering intelligent solutions to help you increase productivity and profitability. Which in turn allow you to focus on your core business concerns: growing your enterprise and enhancing your customer relationships.

Professional and sturdy for use in DECT systems

The new, small, light and high-performance DECT handset combines contemporary design and a sturdy construction. It looks good in any office. The metal surface, the large, clear display and the ergonomic and compact shape make it an eye-catcher at every workplace. At the same time, the handset is protected from dust and spray water. Therefore it is perfect for use in a tough industrial environment, too. It is compatible with all Integral systems from Avaya.

The headset and the hotline key enable easy operation even in rough conditions. The call signaling by means of the integrated Vibra alarm makes it possible to receive calls or messages even in meetings or in noisy environments. D3 mobile can signal and receive text messages, too. The full range of accessories includes: charger, desktop charging device (charging of a handset and a second battery at the same time), plug-in mains unit, battery pack, MEM card, carrying bags, headset, MEM card tool for comfortable PC-supported directory administration.

Features

- Microphone muting
- Adjustable receiver volume
- Handsfree operation
- Directory with 200 entries
- Selector for menu, volume, scrolling
- MEM card for user profile and directory
- User PIN
- 10 ringing tones
